

ALYSSA DAILEY

Full-Stack Software Developer

(513)-340-5480 | alyssadailey28@gmail.com | Morrow, OH | GitHub: <https://github.com/alyssadailey>

CAREER SUMMARY:

Driven Software Developer skilled in full-stack development with expertise in JavaScript, TypeScript, React, Node.js, SQL, and RESTful APIs. Adept at building clean, scalable applications and solving complex problems with precision and creativity. Known for a service-oriented mindset, adaptability, and the determination to deliver impactful, high-quality solutions in fast-paced environments. Seeking a role where I can contribute to innovative projects, continue growing my technical expertise, and gain mentorship while adding value through collaboration and results

SKILLS:

- **Technical Skills:** HTML5, CSS3, JavaScript, TypeScript, React, Vite, Tailwind CSS, NPM, Express, SQL, No SQL, MongoDB, My SQL, Node, Git, GitHub, Bootstrap, Webpack, Restful API's, Insomnia, Postman, Netlify, Render, Figma, Jest, Cypress
- **Interpersonal Skills:** Workflow Optimization, Problem-solving, Documentation utilization, Remote Collaboration, Clear and effective communication, Agile/Scrum collaboration

WORK EXPERIENCE:

Prolink Staffing – Compliance Specialist | Cincinnati, OH July 2022 – Jan 2024

- Coordinated onboarding of 30–50 healthcare professionals weekly across platforms like Bullhorn, First Advantage, and Relias.
- Primary liaison between internal departments and healthcare talent resolving inquiries efficiently.
- Developed a new organizational system to prioritize urgent compliance cases, reducing turnaround time for critical onboarding tasks.
- Maintained meticulous documentation in multiple systems, balancing accuracy with speed under tight deadlines.

Cartridge Brewing – Server and Bartender | Maineville, OH July 2023 – Dec 2024

- Proactively addressed guest concerns with empathy and effective problem-solving to maintain positive experiences.
- Balanced multiple tasks while maintaining organization, accuracy, and composure under pressure.

Texas Roadhouse – Server | Mason, OH May 2025– present

- Provided efficient, high-quality service in a demanding, high-volume setting.
- Built rapport with customers and resolved concerns promptly, contributing to repeat business and guest satisfaction.
- Managed multiple orders and requests simultaneously while maintaining accuracy.

RELEVANT PROJECTS:

Binge Buddies | GitHub: <https://github.com/smoenter/Binge-Buddies-> May 2025

- Led front-end development for a collaborative movie and TV show platform using OMDB and SendGrid APIs. Also utilized HTML5, CSS3, TypeScript, JavaScript, and MongoDB
- Designed and implemented modern, responsive UI using framer-motion

Portfolio-Page | GitHub: <https://github.com/alyssadailey/Portfolio-Project> Feb 2025

- Sole developer on a Netflix-inspired portfolio site showcasing my skills, projects and contact info. Utilized HTML5, CSS3, Animations, React, Vite, NPM, Netlify, and Bootstrap

Call-of-Coding | GitHub: https://github.com/taijamartinez/call_of_coding Feb 2025

- Created an application to help anyone learn different aspects of JavaScript while playing interactive games.
- Led front-end development. Responsible for login page, all game logic, drag and drop interface, as well as creating and updating the wireframe throughout developmental process.
- Utilized technologies such as CSS3, TypeScript, React, Node.js, Express.js, PostgreSQL, PG Admin, Insomnia.

EDUCATION:

The Ohio State University | Full-Stack Software Development Bootcamp Graduated May 2025

- Intensive six-month program covering full-stack development with hands-on projects and experience. Developed expertise in front-end and back-end development, API integration, and database management.
